

Our Philosophy

We believe that each child is created and loved by God and that each child is a gift from God.

It is our desire for children to know and experience the love of Christ, and for each child to have faith in Him so they will be understand His good plan for them.

Each child is given opportunities to participate in activities that provide for growth in self-concept, emotional, and spiritual development.

Curriculum

The school utilizes the "Wee Learn Curriculum Guides". The program is designed to lay a foundation for understanding God, Jesus, Bible, church, self, family, others and the natural world.

The guides are developed around themes which provide opportunities for children to learn about God's world, how to live in it, and become a responsible citizen of it.

Activities that embrace physical, cognitive, social/emotional and spiritual development are included in each theme topic. They incorporate individual, small group and large group activities designed to meet the specific needs and interests of each child.

The curriculum also provides activities to help each child develop readiness skills for pre-language, reading, writing, and math skills appropriate to his or her stage of development.

Learning centers include: art, writing center, block center, book and listening center, home-living, music and movement, nature/science and puzzles/manipulative centers.
